

“World Summit of Free Iran 2022”

Saturday, July 23

Solidarity with the uprising of the Iranian people and Resistance Units in Iran

Resistance is the key to change and victory

Hundreds of politicians and dignitaries from all political parties from five continents, as well as Albania will be present at the event. Tens of thousands of others will join the summit online from their respective countries.

A genuine political prospect will be offered with special reference to the ongoing protests by the people of Iran as the key element paving the way for a fundamental change in the country.

Also, the necessity for ending the systematic impunity in Iran will be discussed with reference to the blatant human rights violations, particularly the 1988 massacre of the political prisoners in Iran, which has been recognized by top jurists as a genocide.
